

S4scale

The ERP packages for growing SMEs

Grow with confidence and agility with the power of a packaged ERP solution.

Think big , start small

As a growing business, you need more than ambition, you need a strong digital backbone. Amista shares the scale-up DNA, so we feel you. Having a robust infrastructure as a centralized ERP-system is one of the key components for success. With our 3 flexible S4scale packages, we'll ensure you're ready for sustainable growth and transformation.

Key benefits of our S4scale ERP packages

Improved efficiency

Streamlined operations reduce costs and free up resources for strategic initiatives.

Better decision-making

Access to integrated, real-time data supports more informed decisions.

Stronger control

Consistent processes and automated workflows lead to better risk management and compliance.

Enhanced collaboration

Unified systems foster better communication between departments

Greater agility

A scalable, centralised system allows for quicker adaptations to market changes.

Scale at your pace, with the support you need

Growth comes with challenges, but you're not alone. Your Customer Success Manager (CSM) keeps an eye on your ERP journey, ensuring smooth scaling and proactive support. With our tailored packages, you get the right balance of guidance and flexibility; helping you implement SAP S/4HANA Cloud Public Edition quickly, without draining your time and resources. Whether you go for a lean setup or full-service transformation, we make ERP work for you, so you can focus on growing your business.

Expand with Add-ons along the way

Transform your accounts payable process
Reduce the pressure on your financial operations with APconnect. Our AI-powered invoice processing solution drives your efficiency, scales with your business, and integrates into your software ecosystem.

Boost user adoption via change management
Provide the training your employees need to succeed. Our Digital Adoption package combines preconfigured templates and content so you can train your employees via e-learning and in-application help.

Why choose our ERP packages based on SAP Cloud ERP?

Fast onboarding	Get up and running within weeks instead of months.
Flexible financing	We ease the financial burden with OPEX-friendly options.
Core process enablement	Optimized for Finance, Sales & Procurement - but perfectly expandable.
Future-proof & robust	Built-in infrastructure, security, and compliance ensure long-term reliability.
Tailored support	From data migration to integrations and change management.

"S4scale is designed to help your business accelerate digital transformation with ease."

Build your digital foundation with Amista
