

Growth Readiness Assessment

Growth is great until your systems can't keep up. Growing fast brings challenges. Are you struggling with logistics process management or running into the limits of Excel sheets? Find out how things can be done differently!

Ready for the next step?

Your ambition knows no bounds. Join Amista to map out your current processes, systems and growing pains via a Growth Readiness Assessment. During 2 working days and at a soft price of 500 euros, we will draw up an analysis that takes into account your ambitions, budget and timeline. We give you the necessary tools and recommendations to evolve step by step. Time to take your business to the next level, that's what we believe in!

Discover our Growth Readiness Assessment process in 3 steps

1

Hands-on session to identify your challenges and goals. What are you running into? Do you wish to grow through acquisitions? Do you want to generate real-time data reports or automate certain systems? We do a preliminary study of the current complexity in your organisation.

2

From this situation analysis, we set 3 to 5 goals we want to achieve together. In a **deep-dive workshop**, we look at what is preventing you from achieving these goals today and zoom in more extensively on processes, departments, industry-specific needs, etc.

3

We then provide you with a **Readiness Checklist and plan of action**. This is fully tailored to your business. We provide the tools to turn the plan into action. If desired, we will proceed to a further collaboration to unburden you and carry out the work.

Your partner for growth

Holistic approach - we look at the big picture and take a personalised approach

Well-considered - we provide tailor-made advice by experienced experts

Result-oriented - we build sustainable growth step by step

Flexible - we understand SMEs' challenges like no other and offer flexible packages
